

LED Lighting & Energy Savings Program with:

WHY Energy Optimizers, USA?

VALUES

- **Commitment** - We will be around AFTER the project is completed. Our staff stays engaged with the District after the project to ensure complete satisfaction and provide support when needed
- **NO CHANGE ORDERS - EVER!**
- **Energy Education Program** designed to engage students in energy and STEM curriculum after project completion
- **Reputation** - customers choose to work with EOU for multiple projects - not just the first one!

EXPERIENCE

- Over **165 projects** completed with Ohio Public Schools
- 11 years in business
- Completed more House Bill 264 projects (54) than any other Energy Services Company, according to the OFCC website*
- Achieved more than \$101,000,000 in savings for our customers as of 12/16/2021. This is equal to 1,556 teachers' jobs saved and 384,000 acres of trees saved

APPROACH

- **Vendor Neutral** - This allows us to develop a project for the needs of the customer, not to try to sell what we manufacture. We will bring in a strategic team as needed for your project, including local vendors you trust and wish to use
- **Purchasing Power** - Our ability to purchase direct from manufacturers because of our high volume of sales
- **Qualified Department of Energy (DOE) Service Provider**, assuring customers of our company's technical and financial capabilities. Energy Optimizers, USA is the SOLE ESCO in the SWOEPC Design-Build program which has achieved this status**

"EOU has designed and implemented several complex projects at Noble LSD since 2018. EOU has become more than just a company with which to work but a true partner in support of our entire school operation."

-Dan Leffingwell, Superintendent, Noble Local Schools, and 2021 Superintendent of the Year, Buckeye Association of School Administrators

About EOU

EXPERIENCED PROFESSIONALS

We are dedicated to meet budget and timeline. Our team includes several associates with direct experience working in Ohio schools, including two retired school superintendents, a facilities manager, a district-wide energy manager, and two business operations managers. These professionals have implemented facility improvement projects at their former school districts, and these experiences have given them knowledge of the unique needs of educational facilities.

- Other professionals include certified energy managers, LEED AP accredited associates, and associates with extensive experience working on design-build projects in school facilities.

We are part of a much larger organization. Energy Optimizers, USA is a subsidiary of The Habegger Corporation.

In February 2018, EOU was acquired by The Habegger Corporation, a Cincinnati-based, family owned and operated HVAC distributor. Our parent company has over 60 years of experience in the construction industry, is the 10th largest HVAC distributor in the U.S., and is the #1 family-owned HVAC distributor in the US. These resources will ensure quality design and material procurement and a more cost-effective project implementation to benefit your District.

**WE LOOK FORWARD TO WORKING TOGETHER.
